## REVIEW AND RESUME.

---

It is a matter of congratulation that notwithstanding the business depression, so universal over the Republic, the financial standing of Indiana should not only be in such excellent condition, but so auspicious in promise for continued betterment. Instead of creating new debts and increasing the burdens of taxation, the era of paying off the State's obligations is substantially progressing. The optional clauses in the bonds being now operative, surplus revenue accruing from the general fund, added to the specific sinking fund, practically enables every idle dollar to be applied in the curtailment of our interest-bearing obligations, so that the saving, while apparently slow, is in the aggregate of handsome proportions. The reports submitted by my predecessor two years ago showed a foreign indebtedness of \$7,436,615.12, with an annual interest outlay of \$283,525. Since that time there have been paid off by refundment \$1,085,000 of three and one-half per cent. registered bonds. The temporary loan of 1885, due April 1, 1895, was refunded in twenty-year three and one-half per cents, by the Indiana Trust Company, of Indianapolis, and the \$500,000 three and one-half per cent. registered State House bonds, 1885, payable May 1, 1895, were refunded in three and one-half per cent. twenty-year bonds, by Blake Brothers & Co., New York. There have been paid \$700,000 of three and one-half per cent. bonds. On January 14, 1895, the issue of \$400,000 three and one-half registered bonds, temporary loan, 1885, was paid; on March 2, 1896, \$300,000 three and one-half per cent. registered bonds were paid. There have been \$300,000 three per cent., temporary loan bonds, issue of 1889, paid; \$100,000 April 1, 1896; \$200,000 August 1, 1896, making a saving of \$33,500 in annual interest. The amount of foreign bonded debt is \$6,436,615.12, the annual interest of which is \$200,005. The domestic debt is represented by \$340,000 of Purdue University five per cent. bonds, and \$143,000 of Indiana University five per cent. bonds, the interest of which is \$24,200 annually. The condition of the general fund is such that on the 15th of December, 1896, \$200,000 additional will be paid on the three per cent. temporary-loan bonds. The State has had an unenviable experience with deficits, one not consistent with commendable pride or business solvency. Based upon present assessment

and levies, prudence in appropriations by the Legislature for the necessities of the State government, and strict fidelity and economy in financial management, will only make a meagre surplus possible. The Finance Board has carefully watched the general fund of the Treasury, and, while making application of the specific sinking fund, has also drawn closely on the former revenue up to the line of most practical prudence, to the end that the State debt shall be touched by a reduction to the extent of every available dollar. This policy of debt and interest reduction should continue. A debt-paying record of \$800,000 in 1896, with its interest saving of \$2,000 per month, commends itself without any words or argument, and is a practical application of business methods to the financial interests of the people.

The present levies for State debt sinking fund, general and benevolent institution funds, should be maintained, as they make sufficient provision to cover all regular and specific purposes, and if a surplus accrues not necessary for contingencies, can and will be applied to gradually reduce the bonded obligations, and at the same time in the aggregate will not prove oppressive taxation.

I do not deem it advisable, therefore, to recommend any decrease in the several tax levies. The expenses of State government are now as closely traced on the lines of economy as they well can be. The same watchful care is exercised in the disbursements of appropriations as characterize detail and expenditures in private business, and while the criticism often finds expression in the allegations of superfluous "red tape," still the State never suffers when the spirit and letter of the appropriation act are rigorously followed. Indiana has the most economically conducted State government, in all departments, of any commonwealth in the Union.

There is a far less outlay to meet the demands of official business, and the State derives more revenue from insurance and other corporate sources, at a less expense, than characterizes the large majority of our sister States. The aggregate valuations of the State are \$1,286,050,531, and hence, any decrease of levies will not be warranted. It is better business judgment, and on the level of more commendable and correct financiering to continue levies that will certainly provide for the necessities of the State, and if a surplus accrue, to apply it, whether much or little, to scaling the public debt. The present levies, and

incidental revenues, as will be seen by reference to the statement of receipts and disbursements, will amply provide for the State government, with probably a very slight surplus, sufficient to lessen annually the burden of bonded obligations, and to this extent, the weight of principal and interest to the tax-payers.

In the disbursements authorized by the appropriation bills, a practice had grown up of not isolating fiscal years, and hence if the appropriations of one year were not sufficient, the deficit was charged and paid from its successor. The result was that in several accounts the deficit by this shifting process had grown so that if much longer continued would have depleted the final fiscal year's appropriation to the point of serious embarrassment, as the deficits were in the maintenance accounts of institutions of extended necessities. The business policy of the practice was fallacious, and if authorized by law, would render the division of appropriations into fiscal years by the Legislature, as the acme of foolishness.

I addressed a letter to the Attorney-General on November 4, 1895, asking for an opinion as to the legality of appropriations of one fiscal year being applied for payment of expenses incurred in another, and was advised by that officer that each fiscal year must stand alone; that the appropriations for each year were inviolate. Hence, I have declined to anticipate payments or pay vouchers from the appropriations of any fiscal year where the expenses were not incurred in that year. On this account there are deficits in the maintenance of the Northern Prison at Michigan City, and the Southern Prison at Jeffersonville, and also in the expenses for sheriffs' mileage in taking prisoners to the penitentiaries, and returning convicts to places of conviction for discharge on expiration of sentence. By adopting the principle authorized in the opinion of the Attorney-General the prisons entered upon the last fiscal year with an appropriation unimpaired, and were amply able to live within their incomes, the amount named by the Legislature.

The appropriation fixed for sheriffs' mileage was \$15,000. Had not the law been changed so as to include the mileage for returning prisoners for discharge this would have been more than ample. This item, however, had the effect to cause a deficit, which will have to be provided for by a deficiency appropriation bill. If the present laws are unchanged the appropriation for sheriffs' mileage should be increased to \$20,000.

This office should be provided with a fund to cover the expense of a special examiner in the making of loans for the College and Permanent Endowment funds, and also in maintenance of detail connected with delays in payments of interest, foreclosures, etc. With half a million dollars loaned over the State, quite a banking business within itself, from a fund that is certainly a sacred trust, the Auditor should be provided with authority to incur whatever legitimate expense is necessary to protect it should an exigency arise. Every precaution against excessive appraisements is taken, and the morale of borrower is considered in connection with the value of security offered, but in the vast number of loans there is from time to time a necessity for personal inspections and examinations. Indiana with its matchless geographical location, its unequalled railway facilities, and its vast subterranean ocean of natural gas, is becoming an industrial world in itself, so rapidly are diversified manufacturing interests taking advantage of these priceless inducements. A sterling public credit, with a financial policy that restricts expenditures within the bounds of necessity and income, ever whittling and undermining our bonds and interest, is an added and appreciable invitation for capital to locate in our great and growing State.

### INSURANCE DEPARTMENT.

The report of the Insurance Department of this office will show that there are now authorized to do business in the State, 50 life, accident and surety companies, 103 fire and plate glass companies and 88 assessment life and accident companies, organized under the laws of other States or nations. During the year nearly ten thousand semi annual licenses have been issued to the agents of these companies. There are also operating in the State 40 assessment life and accident companies, incorporated under the act of March 9, 1883; two mutual fire companies, incorporated under the act of June 17, 1852; one stock fire insurance company, incorporated under the act of March 14, 1895.

These companies have paid into the State Treasury as taxes and fees \$156,220.86.

In addition to the above enumerated companies there are seven companies doing business under special charters granted

by the Legislature prior to the adoption of the present constitution, and over which this office has no supervision.

In the administration of the Department it has been my endeavor to protect the people against impositions by unauthorized and irresponsible companies, and during the year fifteen such have been publicly blacklisted. Twenty companies have been refused admission to the State during the year.

The insurance laws of the State are largely patchwork, being made up of amendments to old laws and supplemental laws, to meet special emergencies. This frequently makes them difficult of interpretation and the authority of the Department uncertain. As questions have come before the Department for decision and action, the query has often arisen whether it would not be wise to authorize the appointment of a commission to thoroughly revise and codify them.

---

## BANK DEPARTMENT.

As will be seen elsewhere in this report, there are ninety-seven banks of discount and deposit, five savings banks, and four trust companies under the supervision of this department.

The changes made in the State bank law at the last session have enabled the department to exercise more effective supervision. The fixed fee for examinations has proved more satisfactory to the banks than the old method.

---

## BUILDING ASSOCIATION DEPARTMENT.

The General Assembly of 1895 authorized the appointment of a commission to revise the building association laws. This commission has made its report to the Governor, and with it submitted the draft of a law. That part of the proposed law relating to supervision is a virtual reenactment of the present law. There is no provision for compulsory examinations. It is a question whether there can be effectual supervision without at least annual examinations.

## LAND DEPARTMENT.

In this department are contained the records showing the disposition made by the United States of all the lands in Indiana. Many of these records are in deplorable condition. The value of preserving them is manifest. In 1889 an appropriation was made for the purpose of copying and indexing them, but the amount was insufficient to complete the work.

Current work requires the constant service of the assistants allowed this office, and if these records are to be preserved, special provision must be made for doing the work.

The State has claims amounting to about \$10,000 pending against the United States for indemnity for swamp lands sold subsequent to the swamp land grant of 1850. These claims can not be prosecuted to a conclusion unless provision is made for collecting the evidence and presenting the same to the General Land Office.

### ESTIMATE OF RECEIPTS AND DISBURSEMENTS FOR THE YEARS 1897, 1898, 1899.

If the value of property for taxable purposes remains the same during the next three fiscal years as now, viz.: \$1,286,050,581, and the present tax levy of 9 cents on the \$100 for General Fund of the State Treasury and 5 cents on the \$100 for the Benevolent Institution Fund is continued, and the receipts from all other sources continue the same, the total amount of revenue collected for the support of the State government and its benevolent institutions for each of the fiscal years 1897, 1898 and 1899 will be \$2,276,091.51.

Should the current expenses (including \$105,000 for legislative expenses in 1897 and 1899), which means the expenses actually necessary to pay the permanent officers, departments and institutions and interest on the public debt, it will require the sum of \$1,939,515, leaving a balance of \$329,226.51.

For the year 1898 this balance will be increased \$105,000, for there will be no session of the General Assembly in that year.

The estimates do not take into consideration any extraordinary or statutory appropriations. They are also based on the taxable value of property remaining as now fixed. For several years there has been a depreciation in the value of personal property returned for taxation, and if this should continue, then the revenues will not be as great as above estimated.

The enumeration for the year 1895 is as follows:

Total number of colored voters.....	13,322
Total .....	627,072

The difference in enumeration of 1889 and 1895 is as follows:

# INSURANCE DEPARTMENT.

## INSURANCE DEPARTMENT.

---

In submitting my report I think it advisable to make some suggestions as to the law of Indiana touching insurance companies. The statute law of the State for the organization and control of insurance companies is very unsatisfactory. The law of 1852 for the organization of home companies contains one provision that is absolutely prohibitory. It is Section 4860, Rev. St., 1894, as follows :

“ Whenever such company shall be notified of any loss sustained on a policy of insurance issued by them the company shall pay the amount so lost within sixty days after such notice, under a penalty of ten per centum damages for every thirty days such loss remains unpaid thereafter.”

Under this section, if a company contests its liability on a policy and is unsuccessful it is subjected to a penalty of one hundred and twenty per cent. per annum. Companies of other States are not subject to any penalty for delay in payment of a loss.

A number of home companies are doing business under charters granted before the adoption of the present Constitution of the State. They do not report to this office, and the law should be so amended that these companies and all insurance companies of whatever character should report to this office their assets and liabilities and make a showing of their business. Indeed, I think, as above suggested, it would be very desirable to have the entire body of our law relating to insurance companies revised and re-enacted in orderly shape. The Legislature of 1879 directed the creation of an Insurance Commission, whose duty it was to “ prepare and present to the next General Assembly of the State a bill for an act embracing a codification of the insurance laws of the State, so amended and with such additional sections and provisions as will, when

passed upon, provide an insurance law which will properly regulate the business of foreign and domestic insurance companies doing business in this State, and provide for a proper collection and accounting of all moneys due from such companies, and embrace such other matter as, in the opinion of said Commission, will be necessary to frame a good insurance law." The Commission reported a bill to the Legislature of 1881, but, as that body had the duty of an entire codification of our law, time did not allow consideration of the Insurance Commission Bill. This bill might suggest the form of needed legislation.

Herewith is submitted compiled statements showing the condition of the fire, accident and casualty insurance companies doing business in this State on June 30, 1896, also statement showing the amount of taxes paid by them during the year ending on the above day. Abstracts of the reports of assessment life and accident companies doing business in the State, showing their condition December 31, 1895, are also submitted.

The authority of the Guarantors Liability and Indemnity Company of Philadelphia, has not been renewed for the last half of the year 1896.

The German Mutual Fire Insurance Company of Indianapolis, Indiana, which has been doing business under the act of 1852, complied with the provision of the act of March 14, 1895, and is now organized as a stock company.

The Merchants Insurance Company of Hammond, Indiana, and the Washington Insurance Company of Hammond, Indiana, fire companies operating under special charters granted by the Legislature, have been placed in the hands of a receiver by the Lake Circuit Court, July 28, 1896. Peter Meyn was appointed receiver of both companies.

# BANK DEPARTMENT.

---

---

## **BANK DEPARTMENT.**

---

A practice has been growing among some of the banks to loan considerable sums of money on the security of their own stock. It is doubtful if this is a wise policy, and it certainly lessens the security of depositors. A provision in law prohibiting such loans would give increased protection to the bank.

During the year new banks have organized as follows:

Albany, Albany State Bank.  
Brookston, Bank of Brookston.  
Cannelton, Cannelton State Bank.  
Red Key, Bank of Red Key.

The Citizens' State Bank of Covington and the Farmers' State Bank at New Palestine went into voluntary liquidation during the year.

On January 15, 1896, the Merchants' Bank of Hartford City consolidated with the Blackford County Bank, and the united banks are now doing business under the name of the latter.

In compliance with the law, the President of the Citizens' Bank of Union City, on May 7th, 1896, notified the Department that said bank had suspended, and the State Bank Examiner was at once notified to take charge of its affairs. He continued in charge until May 19, 1896, when the assets of the bank and all its books and records were turned over to Jesse Canaday, the receiver appointed by the Randolph Circuit Court, and proper receipts taken from him. No dividends have as yet been declared by the receiver, and he advises the Department that it will probably pay only fifty cents on the dollar.

In making an examination of the State Bank of Ambia, on July 20, 1896, the State Bank Examiner found that its capital stock was largely impaired. Acting upon the report of the examination, on August 1, an assessment of 60 per cent. on the stock was ordered, and sixty days given to the stockholders to pay the same. On October 12th notice was received that the holders of 129 shares of the stock had failed to pay the assessment ordered, and on November 12th, acting in pursuance of the law, the stock was valued by me and the stock of said delinquent shareholders was ordered sold, after giving three weeks' notice of such sale in a newspaper published in Benton County. At the time of making this report the notice of sale had not expired, and information as to what further proceedings may be necessary can not be given at this time.

The real estate holdings now amount to \$1,025,402.92, an increase during the year of \$353,790.25. The total receipts from all sources, including cash on hand at the beginning of the year, have been \$24,998,991.91. The expenses, including taxes paid, have been \$658,642.69, or a little more than 2.6 per cent. This showing does not, of course, intend to convey the idea that all associations were operated at that rate of expense, for in many cases it has been much larger. In addition to the above amount of expenses, associations having the withdrawal fee plan paid out as commissions to agents \$95,048.70. This being an expense chargeable directly to the withdrawing member, it was not included in the general operating expenses.

The associations now have 101,775 investing members and 55,849 borrowing members, making the total membership 157,264. There are 850,051 shares of installment stock and 81,916 shares of paid-up and prepaid stock in force, and 314,550 shares have been borrowed upon.

These figures as a whole show that the year has been a prosperous one notwithstanding the general business depression. With the large investments in these associations, their membership should be protected by all the safeguards that the law can throw about them.

In July last, a suit was begun against the Union National Saving and Loan Association of Indianapolis, asking for the appointment of a receiver. After a hearing of the case, a receiver was appointed, and from this action the Association appealed to the Supreme Court of the State. During the pendency of this suit one of the stockholders of the Association filed a petition under the law asking that an examination of the affairs of this Association be made by this department. Upon the filing of this petition, and the bond required by law, examiners were appointed to make the examination, and their work resulted in a report finding the Association to be solvent. After this report, the plaintiffs in the suit dismissed the same, thus setting aside the receivership and ending the litigation.

Early in November of this year, the Marion Circuit Court appointed a receiver for the Mechanics' Mutual Savings and Loan Association No. 2, of Indianapolis. The report of this Association had been filed, but was returned for explanation of some items, and during this interval the receivership proceedings were had, hence the report does not appear with this compilation.

Several days after the appointment of the receiver, the Mechanics' Mutual Savings and Loan Association and the Mechanics' Mutual Savings and Loan Association No. 1, both of Indianapolis, made voluntary assignments. The similarity of names and the fact that previous to July 1 all these associations had been practically under the same management, had caused a demand for withdrawals that promised to cause loss to the stockholders remaining. For this reason it was thought best to put all on the same footing by taking the above action.

## LAND DEPARTMENT.

---

Herewith is submitted a report of the transactions of the Land Department, so far as they relate to matters of record. The principal work of this department is confined to answering letters of inquiry relating to land entries and original surveys. Hundreds of such letters are received annually, and the investigations required consume much time and labor.

There still remains in this office a large number of patents, conveying Wabash and Erie Canal lands. The law directs that these be recorded in the county where the land is situate, and until this is done there will be a defect in the title to these lands. Patents, some issued by the State as early as 1832, and others by the trustees of the canal as late as 1876, are here for lands in Allen, Benton, Carroll, Case, Clay, Crawford, Daviess, Dubois, Fulton, Gibson, Greene, Huntington, Jasper, Knox, Kosciusko, Lake, Lawrence, Marshall, Martin, Miami, Monroe, Newton, Noble, Orange, Owen, Parke, Perry, Pike, Posey, Pulaski, Putnam, Spencer, Sullivan, Vanderburgh, Vermillion, Wabash, Warrick, White and Whitley counties. It is hoped that the owners of canal lands in the counties named, who have not yet obtained their patents and had them recorded will do so at once in order that their title may be made perfect.

The records in this office show that patents have been issued for several hundred tracts of Swamp and University lands. Most of these tracts have undoubtedly been sold, but purchasers have neglected to obtain patents for same. This failure leads to trouble when the present owners desire to sell or mortgage their lands. Such owners should send to this office their certificates of purchase and obtain patents.

## LANDS HELD BY THE STATE BY DEEDS.

### *Marion County.*

The east half of the strip of land lying south of the cross-cut of the Central Canal, in the city of Indianapolis, more particularly described as follows, to wit: Commencing at the junction of Market and West streets and running thence west on the line of Market street to the western boundary of the land known on the plat of the city of Indianapolis as "the reservation;" thence north to the southern base of the embankment of said canal; thence east along said canal embankment to West street; thence south to Market street, the place of beginning. The title to this tract of land was held to be in the State in the suit of the State of Indiana vs. The Water Works Company of Indianapolis, by a decree of the Hendricks Circuit Court, rendered at the January term, 1879.

This tract is held by the Indianapolis Benevolent Society, under a lease executed by M. D. Manson, Auditor of State, April 1, 1880.

All that portion of the southeast quarter of section one (1), in township fifteen (15) north, range two (2) east, contained in the following boundaries, beginning in the Rockville road, at the southwest corner of said quarter section, running thence north forty (40) chains and twenty-five (25) links to the center of said section; thence east along the north line of said quarter section twenty-one (21) chains and forty-five (45) links; thence south twenty (20) chains; thence east six (6) chains and seventy-five (75) links; thence south twenty (20) chains and twenty-five (25) links to the south line of said section; thence west along said south line in said Rockville road twenty-eight (28) chains and twenty (20) links to the place of beginning, containing one hundred acres, more or less.

This tract was originally purchased as the site of the House of Refuge. When the location of that institution was removed to near Plainfield the land was sold to William J. McCaslin, who failed to make payment therefor, and the title to the same was in continuous litigation until affirmed to be in the State by decision of the Supreme Court, rendered at the November term, 1884.

The act of 1889 authorized the sale of this land and it was sold, but in a suit for possession the Marion Circuit Court set the sale aside on the ground of irregularity in sale.

In addition to the foregoing the State holds title to the following described premises, which have not been appraised or offered for sale:

Lots 242 and 243, in E. J. Peck's subdivision of the south part of out-lot 134, in the city of Indianapolis. Conveyed to the State by E. J. Peck and wife, in consideration of \$40, and with this provision: "Said lots to be used as a place of burial for the dead, and for no other use whatever, and if otherwise used then to be forfeited to the original proprietors, their heirs or assigns."
